

Learning Behavior Grades:

Once you are at your homeroom gradebook, select “create assignment.”

Then, type in your short name for the behavior standard you are working with. (Whatever name you put in here **will not** show up on the report card – so if it is short hand, it will work. Find the subject area “Learning behaviors (2016)” and select K5. Next select the standard in which you are working on. Click “save”. Repeat for the remaining learning behaviors.
