

# LAWTON COMMUNITY SCHOOLS

101 PRIMARY WAY • LAWTON, MICHIGAN 49065

March 13, 2020

Dear LAAC Families:

We want to assure you that we will do anything we can to safely provide instruction to our students who are actively working toward graduation. This includes a number of issues, and we know we can count on you to be good partners in this process.

1. We will be distributing school computers for those who do not have a device in their home on the following dates and times. Monday, March 16 9AM-10AM; 5PM-6PM. To pick up a computer, you will need a parent or guardian present and proof of a working phone on site with you.
2. New classes will be assigned before Monday, March 16, 2020. These classes will require more frequent teacher interaction in order to assist us in verifying the student work. They are also mobile compliant and will be accessible on any device. This should be helpful to those who do not have home internet.
3. Student online meetings will be scheduled each “school day.” For a student to keep an active account and participate in instruction that day they will need to attend the online meetings as well as requesting online time to participate in assessments. Students should check their email frequently. Not knowing the time of the day’s online meeting is not an appropriate reason not to attend.

Unfortunately, there is no “good way” to provide internet to everyone in our building or our district. We strongly suggest that you explore options with your cell provider. If you have not had internet in more than 90 days, live in a Comcast area, and receive state or federal assistance, you could consider Comcast Essentials for \$9.95 a month. More on that is available here:

<https://www.xfinity.com/support/articles/comcast-broadband-opportunity-program>

As always, I am here to help as I can. Please be safe and well.

Sincerely,

Tamara Webster  
LAAC Principal
