

LAWTON MIDDLE SCHOOL

100 BLUE PRIDE DRIVE • LAWTON, MICHIGAN 49065

4/14/20

Dear LMS Parents and Students,

As you are fully aware, students will not be returning to school for the rest of the year. At Lawton Middle School we are fully committed to the safety of our students and community. In accordance with the Executive Order, Lawton has designed and created a Continuity of Learning Plan. This plan describes methods we will utilize to deliver an education to all our students at Lawton Middle School. While our teachers are creating their plans, students can still use multiple tools to keep their minds sharp. They can continue working on the enrichment materials given to them before Spring Break or check their Google Classroom for additional materials and resources. Also, the Michigan Association of Secondary Principals have developed lessons that students may find beneficial while waiting for future assignments. The latest lesson can be found at the following website: https://massp.com/sites/default/files/documents/toolbox/Weekly%20Learning%204-13_0.pdf I will continue to send more resources in the future to help supplement your child's education.

This week the staff will be working on a plan for remote learning for the rest of the year. The staff will prepare some activities for the students to work on during the week of April 20th. Starting the week of April 27th, teachers will be educating our students on new concepts and ideas. If your child has access to the internet, teachers will be delivering some of their content through Google Classroom and using the app Google Hangout to provide lectures. If you do not have a device, the district is working on a plan to provide devices for those in need. In addition, teachers will be providing office hours for students so they have a chance to ask questions. The student's instructor will contact them regarding the time and day that office hours will occur. I will have future communications from me regarding class schedules, packet distribution, and other announcements.

I know that we are once again leaning on parents and guardians to help out in their child's education. The staff at Lawton Middle School wants you to know that you are not alone. We are all in this together and will be here for you if you have any questions. Feel free to attend a virtual class with your child through Google Hangout. Also, you are more than welcome to participate in teachers' office hours to ask questions or to receive support in helping your child learn a new lesson. Staff members will answer questions if you contact them through email or phone. I appreciate all the patience and understanding the community has shown at this time and I look forward to our students continuing their education.

Sincerely,

David M. Williams
